Hand-tied coil seating system with Never Sag™ webbing.

Leggett & Platt Hand-Tied Seating System components include:

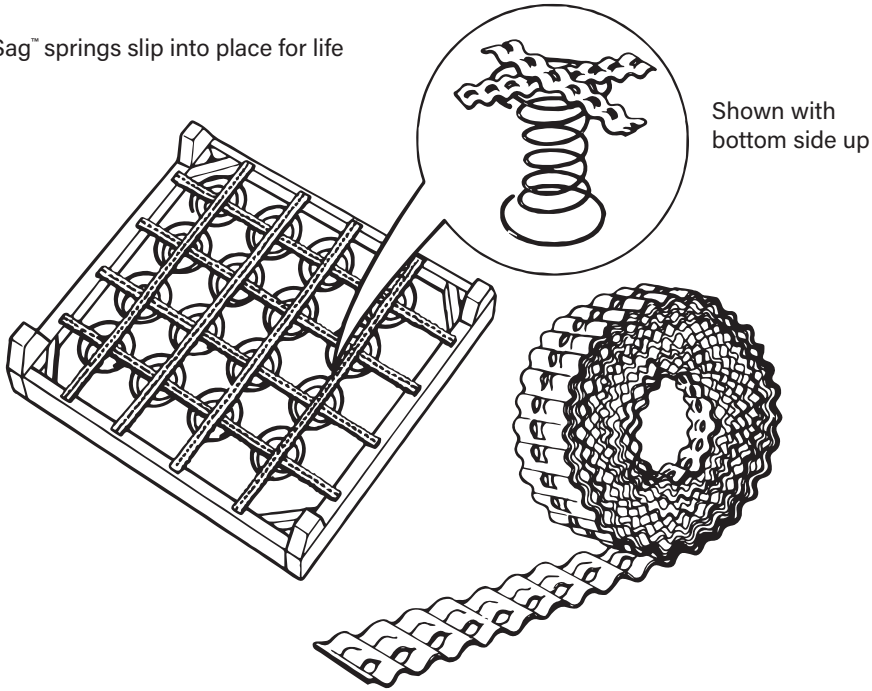

- Never Sag™ steel webbing – provides resilient support for the coils: springs twist into the corrugations, eliminating the need for sharp Klinch-Its
- Complete selection of high-quality coil springs
- Twine for hand tie
- Border wire – straightened-and-cut or pre-formed
- 3-prong wire clips and clip tools
- Wide selection of edge roll materials
- C-rings, hog rings, and ringing tools for attachment of edge rolls
