

PATIENT'S CHOICE

Medical Chair Mechanisms

Treatment chair – shown in the Trendelenburg position

Foot tray supports the patient's feet when the chair is in the closed position

HANDLE OR CABLE RELEASE ACTIVATOR

BUILT-IN, ELEVATED, MID-OTTOMAN

WELDED METAL BASE ASSEMBLY FOR DURABILITY

Heavy-duty construction for superior performance.

Patient's Choice medical chair mechanisms, available for treatment chairs, rockers, and Wallhugger® furniture, are geometrically balanced to allow the occupant's weight to balance operation instead of springs. Its wide heavy-gauge links are designed for safety without pinch points.
