

Vari-Tilt™

- INFINITE RECLINE POSITIONS
- MULTIPLE ACTIVATION OPTIONS
- DIVERSE STYLING CAPABILITY
- LONG-LIFE™ JOINTS

Gas cylinder reclining technology.

The Vari-Tilt is a gas cylinder-operated press-back mechanism that offers diverse styling capabilities, infinite recline positions, and works with all seating applications. Long Life™ joints are used in all major pivot points to increase life and provide smooth operation. Activation options include both inside handle or toggle-style.
